GGCE

Agenda

Overview
GG vs GGCE

Semantics

GG	GGCE
Accession identifier	Accession number
Accession number	Sequence number
Accession-inventory name	Germplasm name or Accession name
MCPD	Multi Crop Passport Descriptor
Request	Distribution (request)
	Barcode Text: example: I:40748
	Withdrawn inventories
Codes	Vocabularies
	GLIS – Global Information System (DOIs)
	Genesys – Crop Trust Portal

Interface / Navigation

- Logging in / passwords
- Interface
 - Left navigation menu
 - Grid / table rows
 - Scrolling
 - Gear icon / adjusting columns
 - Sorting rows
 - “+” vs. Hamburger button
 - Banners
 - Forms
 - Searching / Filtering

Gear icon

The screenshot shows a web browser window displaying a table of genetic accessions. The browser's address bar shows the URL <https://demo.ggce.genesys-pgr.org/a>. The page header indicates "Showing 100 of 26,324 accessions" and includes a search bar. A left-hand navigation menu lists various options: Home, Accessions, MCPD, Accession summary, Schedule, Accession actions, Source observations, Source descriptors, and Help. The main content area is a table with columns for ID, Accession Number, Taxon, Preferred name, Status, and Curation Type. A gear icon is located in the top right corner of the table, circled in yellow. The footer of the page includes the text "GGCE by Global Crop Diversity Trust v2023.6".

ID	Accession Number	Taxon	Preferred name	Status	Curation Type
1	MAR 144 RRG	<i>Humulus lupulus</i>	MAR 144 RRG	Active	Fully curated
2	ICBA 8368	<i>XTriticosecale</i> spp.	ICBA 8368	Active	
3	ICBA 8367	<i>XTriticosecale</i> spp.	ICBA 8367	Active	
4	ICBA 8366	<i>XTriticosecale</i> spp.	ICBA 8366	Active	
5	ICBA 8365	<i>XTriticosecale</i> spp.	ICBA 8365	Active	
6	ICBA 8364	<i>XTriticosecale</i> spp.	ICBA 8364	Active	
7	ICBA 8363	<i>XTriticosecale</i> spp.	ICBA 8363	Active	
8	ICBA 8362	<i>XTriticosecale</i> spp.	ICBA 8362	Active	
9	ICBA 8361	<i>XTriticosecale</i> spp.	ICBA 8361	Active	
10	ICBA 8360	<i>XTriticosecale</i> spp.	ICBA 8360	Active

Parent Inventory

Parent inventory

The first field on the form expects you to select the **Parent Inventory** when known. When you select the parent inventory, several other fields automatically fill in, based on that inventory item: **Accession**, **Inventory Maintenance Policy**, and **Inventory Type**.
