Roll Call

Agenda:

Approve minutes from last meeting. Motion to approve \_\_\_MS \_\_\_\_; Seconded \_\_JS\_\_\_\_\_

Old Business:

1. Report from DEV:

- Server (DBMU) – working on maybe having a release in 4 or 4 weeks. MS would like a build sooner since some Tax queries are broken. KK has tickets available to test on DEV.
- CT (P. Cyr) – Nothing to report

2. Subcommittee reports:

- Multiple inventories, seasonally available and multiple form (J. Smith) – Need testers to move the process along – expand the tester group.
- Genetic Observations (C. McGovern) – BH has some preliminary GOB components to load to the CT.
- NRR (GK, HB, MR, AN and BH) -
- GIS (L. Taylor) -
- Barcoding/reports/labels sub-committee (PC) -

- APR (L. Burke) –
- Reports (GV)

3. Review Third set of inventory actions.

[#2925 \(Update on Inventory actions 13103 and 13112\) – GrinGlobal \(ars-grin.gov\)](#)

4. JS asking about the packing slip – SE has a ticket in to correct the packing slip that correctly has the order type. Dataview needs an additional column added (PC) – BH would have to add that  
Two tickets: Dataview change and a report change. SE will send tickets to the DEV team.

Add the distribution form type to the dataview:

Add new field to the order packing reports

<https://npgsweb.ars-grin.gov/trac/GG/ticket/2930#ticket>

New Business:

1. SVALBARD backup NLGRP inventory code. (CM). CM will add ticket.
2. Discuss GG enhancements brought up at the NPGS Brainstorming workshop:
  - APR – for example: Add a button to the check-out process, alerting requestors that we would benefit from getting data and citations related to the accessions that they requested. “Our collections benefit from citations and data related to the accessions that you have requested. Would you be willing to provide this information (checkbox)”  
Additionally, when do you anticipate completion and publication of your research Month/Year. Also asking for any past research that they would like to submit at this time for past orders.
    - [#2929 \(Add requestor response features to the checkout process in the PW\) – GrinGlobal \(ars-grin.gov\)](#)
    - Need to develop an application to allow the requestor to load information.
    - Perhaps have tools to submit citations and observations.
  - How to implement FIELDBOOK and the GG database to facilitate loading field data
  - Developing a system wide applied bar-coding label system for improving loading data into the GG database

Future meeting dates:

April 23<sup>rd</sup>
