K Kittell	Mark Millard	Marty Reisinger	Benjamin Haag	Cullen McGovern

*Change control board

Visitors: Chaing Kun Fang

Roll Call

Agenda:

Approve minutes from last meeting. Motion to approve __LT____; Seconded __TH____

Old Business:

1. Report from DEV: Kurt coming back with New Solutions – waiting for additional background check – once that is done, he will be back working. He is available for discussions but does not have access to the system. GK has selected a new hire and he has accepted the position – Brett Hunter – fully remote - located in California. GK would like for him to have a tour of the Davis facility. Hopefully will start in April after the full background check.
 - Server (DBMU) – hope for a server release in late March. Will hold testing until DEV had been refreshed pending the new build – KK has many tickets.
 - CT (P. Cyr) – Figured out bug in attachment wizard and will put a ticket in. Is working on image orientation in the wizard.
 - Still are in a holding pattern with requests from China.

- SMTA is being looked at again for some potential changes based on taxonomy and intended use.
 - GK suggests printing the SMTA and including it in all the orders until further notice.
2. Subcommittee reports:
 - Multiple inventories, seasonally available and multiple form (J. Smith) – Need testers to move the process along – expand the tester group. – **JS will have more time testing since order season is coming to an end.**
 - Genetic Observations (C. McGovern) -
 - NRR (GK, HB, MR, AN and BH) -
 - GIS (L. Taylor) -
 - Barcoding/reports/labels sub-committee (PC) -
 - APR (L. Burke) –
 - Reports (GV)
 3. GG AdCom annual report
 4. Search Tool Enhancements

New Business:

1. [#2909 \(Update how the accession action date is displayed on the PW\) – GrinGlobal \(ars-grin.gov\)](#)

Accession Action ID	Accession	Action Name	Started Date Format	Started Date	Completed Date Format	Completed Date	Is Web Visible?	Method	Note
771627	PI 444489	Passport data corrected	mm/dd/yyyy	2/23/2024	mm/dd/yyyy	2/23/2024	Y		The passport information is

May I propose something be done on the accession action date presentation. I entered both a start data and a finish date on an action I recently entered for PI 444489. dates look screwy at the end. May I propose that only the last date of start and finish be displayed. If they are both there finished should be the one to appear.

Actions

- **Passport Data Corrected:** The passport information exchanged when the accession was deposited indicated that the kernels of this accession were white. All kernels deposited at that time are mostly orange, calico, or red with perhaps a very low frequency of almost white kernels. Earlier and later accessions that have the duplicate bank collection number also have the orange, calico, and red kernel color distribution. The "Races of Maize" for Bolivia also notes the unusual oranges for this race Cariaco in Bolivia. The original kernel description appears to be incorrect. . 23 Feb 2024. 23 Feb 2024.

GK suggested explaining the date – add “updated” to explain the date. CCB voted yes.

2. Discuss adding the additional life form information on the PW accession detail page.

Details for: GSOR 303101, *Oryza sativa* L., RIL# 1

Summary Passport Taxonomy Other Pedigree IPR

Summary Data

Taxonomy: *Oryza sativa* L.
Top Name: RIL# 1
Origin: Developed – Arkansas, United States
Maintained: Rice Genetic Stock Center
Received by NPGS: 27 Oct 2014
Improvement Status: Genetic material
Reproductive
Uniformity: Recombinant Inbred Line
Form Received: Seed

CCB voted yes. Marty will add a ticket.

Jenny brought up an issue that she would like help on – she will send out an example.

Jill and April have sent out another set of inventory actions to review.

PGOC – In Davis – up in the air if virtual or live. Likely to be in August.

Future meeting dates:

March 12thth

Reminders:
