1. March 13th Q and A – spread the word to those who should attend – Ideas for discussion.
2. Open discussion of how things are going:
    a. Any immediate needs that the DEV team should be aware of?
    b. Have sites been using the new labels? Any issues?
3. Search tool enhancements (J. Bushakra and P. Cyr)
4. Zip code display in the OW (A. Nyberg and P.Cyr)

Minutes

Q&A Topic: Tips and Tricks. Dynamic queries and NRR order processing. Order related updates

J. Smith: New inspection procedure. Now researches requirements on site instead of receiving requirements from inspector. Cuttings and budwoods require snail inspections and a phytosanitary certificate. Jill and April need certs for two states. Stacey: mostly uses certified nursery "growers" certificate.

Distribution suspended (temp): April/Jill. Lisa Taylor internationally. Melanie in Beltsville due to customs returns.

Brett Hunter has returned. Kay and Laura briefed him on public the website.

Search tool enhancements: Move Taxonomy closer to the left-hand side of the inventory dataview.

- Pete is working on a HUGE re-write of the search tool that will let you customize column order.
- A "quick" workaround would be to rearrange column order in the current search tool if we could agree to a sort order. Pete suggests creating a demo dataview: get_inventory_search_clonal
- Build your query in the search tool and then save it as a dynamic query in the CT. (Marty will demo)

==AdCom Priority== Order distribution form type: must be added to the order packing list dataview. https://npgsweb.ars-grin.gov/trac/GG/ticket/==2621==

==AdCom Priority== Zip code display in PW: add zip code to concatenated cooperator record.

- There's a PW report that will display all 3 shipping addresses for one order number at a time.
- Create an order wizard report that just displays shipping information for the selected orders ==CREATED TICKET:== https://npgsweb.ars-grin.gov/trac/GG/ticket/==3073==
