Hatching AdCom
Priorities

Brainstorming Session

Goal

Identify AdCom priorities...

identify opportunities for improvement where
software (or hardware?)
can facilitate genebank tasks

2 Examples

1) Customer account mainframe data

- Marketing Dept. needed 1 day each month to process 10 accounts' data in a spreadsheet

planning to ramp up... > 10 accounts

Marketing Dept. request

...customized macro training

Solution

- ~~• Macro-driven spreadsheet~~
- Database driven report

Example 2

2) Genebank system receives many invalid germplasm requests

Assumptions...

- .gov and .edu requestors *generally are not* NRRs
- Most NRRs involve many genera

...2 more assumptions

- Review process must be quick
- Minimize manual emailing

...1 more assumption

- No change to current GG software (PW or CT)

Solution

The screenshot displays the GGTools web application interface. A red callout box with the text "NRR-B-GONE" is overlaid on the left side of the page. The main content area shows a list of Web Orders with columns for ID, Submitted, By, Email, City, and State. The "NRR_FLAGGED" status is selected in the filter menu.

Browser tabs: RRG - Reisinger Resource G, GRIN-Global, GGTools Index -, Timeline - GrinGlobal, GRIN-Global

Address bar: https://training.ars-grin.gov/ggtools/WebOrder#

Navigation: MAIN NAVIGATION, GGTools Home

Order Status Filter:

- ACCEPTED
- CANCELED
- MIXED
- NRR_FLAGGED**
- SUBMITTED
- Any

Submittal Time Frame: Today
